25X1D

3. All rail lines observed on the above referenced missions are plotted on the enclosed annotated overlay (CIA/PID/IB-P-1448/64). Where possible, all rail served industries, which are not situated within urban areas, are also located and identified on the overlay. Abandoned and new rail construction activity are also depicted. Since no rail lines were located on the area covered by AMS Map Sheet NG 51, no map or overlay for this map is included in this study.
